

Pulak Chamaria

Executive Director

2 September 2009

Dear Mr Engineer,

It is my privilege to share Infinity's latest success story with you.

Our signature project, **Infinity Benchmark**, has been awarded LEED **Platinum** level certification by the U.S. **Green** Building Council (USGBC). The LEED® (Leadership in Energy and Environmental Design) **Green** Building Rating System™ is USGBC's leading rating system for designing and constructing the world's **greenest**, most energy **efficient**, and high performing buildings. **Infinity Benchmark is the second building outside USA and 7th in the world to get a Platinum rating under LEED Core & Shell version 2.0.**

We, at Infinity, feel proud to have been able to gift Kolkata with this unique infrastructure and placing Bengal in the global **green** map. Our engineering, design and architecture team has worked extremely hard to ensure that we qualify to achieve the stringent guidelines set by USGBC and reach superior standards.

We are certain that it would not have been possible for us to attain this success without your support and cooperation throughout our endeavour to be the pioneers in every field.

Thank you once again.

With kind regards,

Yours sincerely,

PULAK CHAMARIA
